

## Stephen Levy's Hacker Ethic

- 
1. Access to computers should be unlimited and total.
  2. All information should be free. "
  3. Mistrust Authority- promote decentralization. "
  4. Hackers should be judged on their hacking, not bogus criteria such as degrees, age, race, and position.
  5. You can create art and beauty on a computer.
  6. Computers can change your life for the better.
